

KELLY ANKOUÉ

Product Designer | UX & Policy-Informed Design

kellyankoue03@gmail.com • linkedin.com/in/Kelly-Ankoué • New York, NY

DESIGN & TECHNICAL SKILLS

UX & Design: User Research, Wireframing, Prototyping, Figma, Information Architecture, Content Strategy, Usability Testing, Accessibility, Iterative Design

Technical: HTML5, CSS3, Python, Data Visualization, AI Governance, Process Automation, Dashboard Reporting

Tools & Methods: PowerPoint, Excel, Policy Research, Qualitative Interviews, Stakeholder Presentations, Documentation

EDUCATION

M.A. in Ethics & Society | Fordham University | New York, NY

May 2026

Concentration: Ethics, Law & Policy

B.A. in Information Science | Cornell University | Ithaca, NY

May 2025

Concentrations: UX Design | Law, Ethics & Policy

DESIGN EXPERIENCE

UX Designer & Researcher | Healing Without Bias | New York, NY |

Spring 2026

- Designed a 6-page accessible digital platform from scratch, making complex healthcare law and Medicaid policy understandable to users with no prior legal background.
- Ran iterative content and layout audits — refining hierarchy, wayfinding, and readability across multiple review cycles until the experience felt intuitive for low-literacy users.
- Grounded every design decision in original policy research on structural racism and the Medicaid coverage gap, ensuring content accuracy alongside usability.

UX Designer | Nexus — Social Platform for Transfer Students

May 2024

- Led end-to-end UX design for a mobile app solving community access barriers for transfer students, from initial research through final prototype.
- Ran 10+ user interviews to surface systemic onboarding gaps; redesigned core navigation based on findings, improving resource access efficiency by 30%.
- Translated qualitative research into prioritized design decisions, iterating prototypes until they aligned with real user mental models and accessibility needs.

UX Designer & Strategist | TikTok Creator Tools — Case Study

Jan – May 2023

- Identified usability gaps and misinformation risks in TikTok's creator editing flow through heuristic analysis and competitive benchmarking.
- Designed and tested high-fidelity Figma prototypes introducing transparency indicators and friction prompts — validated through usability testing to improve trust and task efficiency.
- Presented design rationale and iteration decisions through structured critiques, building the kind of documentation and communication habits expected in real product teams.

RELEVANT EXPERIENCE

Graduate Assistant | Fordham University — Ethics & Society Dept. | New York, NY

Aug 2025 – May 2026

- Produced research briefs and policy documents for 3 department heads, distilling complex academic content into clear, actionable materials under tight deadlines.
- Reviewed and edited 25+ published academic articles, coordinating multi-stakeholder feedback cycles and ensuring content accuracy across tight publication timelines.
- Maintained communications and operational systems across platforms, tracking engagement metrics and surfacing insights to improve departmental workflows.

LEADERSHIP & COMMUNITY

External Relations | Black Students United — Cornell University | Ithaca, NY

Jun 2023 – May 2025

- Coordinated workshops and programs for 35+ students, managing end-to-end logistics, stakeholder communications, and cross-org partnerships.
- Drove post-secondary pathway programming and supply drives, tracking outcomes and maintaining records across academic years.
- Planned and executed large-scale campus events, owning logistics from concept through delivery alongside a cross-functional team.

Co-Mentorship Chair | Underrepresented Minorities in Computing — Cornell | Ithaca, NY

Jan 2022 – Dec 2024

- Designed and ran biweekly programming for 70+ participants over 2 years, building curriculum and operational systems from the ground up.
- Organized monthly networking events connecting students with tech industry leaders — coordinating speakers, logistics, and follow-up documentation.
- Used engagement data to continuously iterate on programming, improving retention and participant satisfaction year over year.
